Dear Mr Mesbes.

I have just finished reading your latest book Frame-Up. As a student of assassinations of the 1960's I found it fascinating. I am interested in the cost of

Post Mortem: Suppressed Kennedy Autopsy
Post Mortem II - Secrets of the Kennedy Autopsy

I have all your other books as an instructor in Political Science I would very much like to add them to my collection.

I am now teaching a class on the 1960 assassinations and I am grateful to men like you, & much Love for your great research.

I am in Touch with Dave Lifton who as you know is writing the book on the Kennedy Case. Hope to hear from you

Sincerely
B R Deerson
